BCA(Bachelor in Computer Application) | 06/2021

Army Public School | Dehradun, Uttarakhand
12th | 05/2018

Army Public School | Dehradun, Uttarakhand
10th | 05/2015

Projects

- **Portfolio Website**

In this project I have used React js (which is an open-source front end JavaScript library for building user interface). And also used Tailwind Css (which is an utility- first CSS framework). In this project I have created frond end using react js and design using tailwind CSS. In this project includes all information about myself, education and my achievements. [Click here to see](#)

- **Handwritten Characters recognition in ML**

In this project I have used Logistic regression which is an classification algorithm of machine learning. With the help of logistic regression model I have taken the 3 classes of character which is A,B, C and also taken 1000 data set of particular class which I have taken from kaggle. In this project I have used different library of python like numpy, pandas, matplotlib. Usnig this I have create this handwritten words recognition project which is used to recognise the characters which is written on the 2D plane.

Skills

- HTML
- CSS
- Javascript
- Oracle Database
- C++
- C

Achievements

- Played National in Football.
- Caption of Doon Star football club.
- Played State, Core and Command in Football.
- 1st place, Daring trooper Graphic era 2018.
